## 300 Student Desk Specifications

**Frame:** All-tubular design, 16 gauge x .930" x 2.16" flat oval tubing uprights, multiple arc welded into an integral design. 3/4" x 2" x 16 gauge tubular cross brace is welded to connect each leg. Minimum 20" of total weld. Frame is powdercoated after all welding is complete.

### Standard Chrome Insert Finish:

Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mills (25%-50% more than our competitors) of Nickel-it will not scratch. Our product is chromed on plateable quality tubing after all welding is completed to prevent rusting on unfinished welds.

**Inserts:** 3/4" x 2" diameter, nickel/chrome plated tubing with punched holes to receive eight adjusting screws. Leg adjustment uses self-tapping locking screws which pass completely through both upper leg and lower insert.

### Glides:

High quality molded insert. Four independently adjustable nylon glides fit through insert tube locking in cap. The units allows for easy adjustment for inconsistent floors.

**Solid Plastic Top:** Solid molded thermoset plastic. 19" x 26" work surface with smooth molded edges and permanent color throughout thickness. Molded pencil groove. Top is attached using self-tapping screws into seven uniformly drilled holes.

### Laminate Top:

Three-ply construction. High pressure laminate and backer are 'fused' to the wood core base using a glue web formulation that is clean, environmentally safe, extremely consistent. Fused tops are well balanced on both sides to help prevent moisture absorption and warping.

**Top Colors HP:** Available in standard Beige and Slate. Optional Charcoal, Grey Nebula, Maple, cherry, Oak, Mahogany, and Walnut.

**Top Colors Laminate:** Available in standard Grey Nebula and Maple, Any color that is a Wilsonart™ standard is available for an upcharge.

### Warranty:

- Limited lifetime frame warranty
- Ten Year Comprehensive Warranty

**Samples:** Compliance with the specifications and verification of required quality levels may be determined by requesting samples.
