

370 SERIES CANTILEVER DESK

usacapitol
PREMIUM QUALITY CLASSROOM FURNITURE

Cantilever construction occupies space with asymmetrical balance, action, rhythm.....utilizing stress for structural efficiency.

H I G H L I G H T S

- High Strength Steel Frame
- Modern Cantilever Design
- Functional Easy Access
- 14 Gauge Continuous Leg
- 14 Gauge Top Support
- Lifetime Frame Warranty
- 4 Desk Heights
- Through-Screw Top Attachment
- Unique Hard or Soft Glide
- Scuff-proof Chrome legs

370 Series Desk Specifications

Frame: 31", 29", 27" and 25" units: 1 1/8" diameter, 14-gauge Cold Rolled High Strength Low Alloy Steel, legs, top support and arc cross brace. Both the top support and cross brace are coped and 360-degree arc welded to each leg for maximum structural integrity. Two 14-gauge plates are 360-degree arc welded to the top of the continuous arc bend legs, along with three through punched holes in the top support tube for optimum top attachment. The arc bend cross brace allows more leg room and enhances the cantilever design. The frame is hard nickel chrome plated after all welding is complete.

Top: Solid molded thermoset plastic. Smooth molded edges with an arc shaped relief cut for optimum comfort. Desktop features a permanent color throughout and a pencil groove. Top is through-screw attached using an engineered self-tapping screw in to 5 precision drilled holes.

Top Colors: Available in standard Sand and Slate. Optional Charcoal, Grey Nebula, Maple, Oak, Mahogany, and Walnut

Warranty:

- Limited Lifetime Frame Warranty
- Ten Year Comprehensive Warranty

Models:

- 370-1*31" w/20"x26" Desktop
- 370-9*29" w/20"x26" Desktop
- 370-7*27" w/20"x26" Desktop
- 370-5*25" w/20"x26" Desktop

Standard Chrome Finish: Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mills (25%-50% more than our competitors) of Nickel-it will not scratch. Our product is chromed on plateable quality tubing after all welding is completed.

Glides: Unique Patent Pending sled based toe and foot. Euro design elements and the highest quality material are combined to create the highest quality form and function in the marketplace. Incorporating our exclusive glide pad available in either nylon or neoprene.

F E A T U R E S

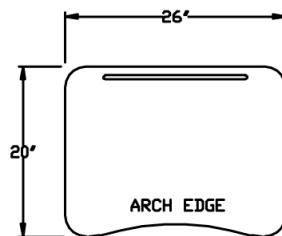

- Modern Cantilever design
- Easy access cantilever design saves classroom space
- Responsive, active, balanced engineering
- Utilizes stress for structural efficiency
- HSLA - High Strength Steel Frame
- Hard Chrome on plateable quality steel
- Full gauge steel
- Through screw top attachment
- 1-1/8" 14ga continuous legs and upper
- Innovative glides available in both nylon and neoprene
- Superior extra-long welds
- Lifetime Frame Warranty
- USA Made and USA sourced raw materials

Standard Frame Color: CHROME

Standard Hard Plastic Top Colors: Sand and Slate

Optional Hard Plastic Top Colors: Grey Nebula, Charcoal, Maple, Oak, Cherry, Walnut, and Mahogany.
