- Green Glides

Legacy™ 827 Bookbasket Tablet Arm Chair

Frame: All-tubular design, 1" diameter, 18-gauge steel. The "H-frame" is designed with parallel tubing running from front to back of chair. Front legs of the chair and back support are one continuous tube. Rear legs and seat support are also one continuous tube. Tubing is multiple arc welded at four locations where leg rails and back posts are parallel to each other with a minimum combined total of at least 1-1/2 feet of total weld, and is done so that the welds are not exposed. Wallsaver designed. Frame is chrome plated after all welding is complete.

Tablet Arm: 1" diameter, 16-gauge tubular steel, arc welded together to form a "Y-shape" giving the top support in all directions. Support is multiple arc welded to the outside of the front legs and 360° welded to the chair back post.

Bookbasket: 12-1/2" x 11" x 6" made of 1/4" steel rod and welded to the frame at four points. Designed to avoid use as a footrest.

Standard Chrome Finish:

Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mills (25%-50% more than our competitors) of Nickel-it will not scratch. Our product is chromed on plateable quality tubing after all welding is completed to prevent rusting on unfinished welds.

Glides: Glide base material will be thermomolded from synthesized hybrid copolymers. Glide attachment will be a standard internal gripping spring steel umbrella at least 5/8" diameter or larger. The glide will have a ferrule. Glide casing and ferrule shall be constructed of durable case hardened steel; no plastic. The glide will be of full swivel design, silent and firm fitting for positive attachment and retention. All glides must make full level contact with the floor and the maximum swivel angle of the glide shall not be violated. All glides must be factory installed and permanently attached.

Seat & Back: 5/8" thick posture contoured solid molded thermoset plastic with smooth molded edges and permanent color throughout thickness. Seat size is 16" wide x 15-1/2" deep on the 17-1/2" chair, and 14" x 13-1/2" on all

other chair heights. Back size is 14" wide x 6-1/2" high on all chair heights. Both seat and back are attached through punched holes in tubular frame using self-tapping screws into four uniformly drilled holes.

Tablet Arm Top: Solid molded thermoset plastic. 14" x 19-3/4" x 26-1/4" with smooth molded edges and permanent color throughout thickness. Pencil groove. Tablet arm is attached to tubular frame with four plated loops and self-tapping screws into eight uniformly drilled holes.

Tablet Arm Top Colors: Available in standard Beige and Grey, optional grey nebula, charcoal, maple, oak, cherry, walnut and mahogany.

Seat & Back Colors: Standard-Navy, Sand, Wine, Hunter, Slate, Cranberry, Black. Optional - Red, Cocoa, Charcoal, Brown, Teal, Maple, Cherry, Oak, Walnut, Mahogany. Special - Gold, Orange, Mauve, Plum, Green (Other)

Warranty:

- Limited Lifetime Frame Warranty
- Ten Year Comprehensive Warranty

Models:
