- 16 Gauge Back-Support
- Lifetime Frame Warranty
- 2 Seat Heights
- 7 Standard Seat Colors
- Green Glides

Legacy™ 900A Series Combination Chair Desk Specifications

Frame: All-tubular design, 1-1/4" diameter, 16-gauge tubing. 1", 16-gauge side brace is 360-degree arc-welded to both front and rear leg support and top support. A 1", 18-gauge side-arm is 360-degree arc-welded to back support and top support. A 1", 16-gauge back support is multiple arc-welded to the leg and top support. A 1-1/4", 16-gauge top support is arc-welded integrally with all tube parts for maximum structural integrity. Minimum 3-1/2 feet of total weld. Frame is chrome plated after all welding is complete. The frame shall be contoured to conform to the shape of the seat-back to accept uniform attachments.

Standard Chrome Finish: Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mills (25%-50% more than our competitors) of Nickel; it will not scratch. Our product is chromed on plateable quality tubing after all welding is completed to prevent rusting on unfinished welds.

Glides: Glide base material will be thermo-molded from synthesized hybrid copolymers. Glide attachment will be a standard internal gripping spring steel umbrella at least 5/8" diameter or larger. The glide will have a ferrule. Glide casing and ferrule shall be constructed of durable case hardened steel; no plastic. The glide will be of full swivel design, silent and firm fitting for positive attachment and retention. All glides must make full level contact with the floor and the maximum swivel angle of the glide shall not be violated. All glides must be factory installed and permanently attached.

Seat & Back: Only 5/8" thick posture contoured solid thermo-set plastic with smooth molded edges and permanent color throughout thickness shall be used. Seat size is at least 16" wide x 15-1/2" deep. Back size is at least 14" wide x 6-1/2" high on all chair heights. Both seat and back must be attached through punched holes on a contoured tubular frame using self-tapping screws into four uniformly drilled holes.

Seat & Back Colors: Standard-Navy, Sand, Wine, Hunter, Slate, Cranberry, Black Optional-Red, Cocoa, Charcoal, Brown, Teal, Maple, Cherry, Oak, Walnut, Mahogany Special- Gold, Orange, Mauve, Plum, Green (Other)

Seat & Back Attachments: Both seat and back are attached through punched holes in tubular frame using self-tapping screws into four uniformly drilled holes. Seats and backs shall be attached in four places each without the use of spacers, washers or noise reducers (attachment systems that create any noise without these devices are not acceptable).

Top: Solid molded thermo-set plastic (18" x 24" x 5/8") with smooth molded edges, pencil groove and homogeneous color. Top is attached using self-tapping screws into seven uniformly drilled holes.

Top Colors: Available in standard Beige and Grey, optional grey nebula, charcoal, maple, oak, cherry, walnut and mahogany.

Warranty:
● Limited lifetime frame warranty
● Ten Year Comprehensive Warranty

Models:
■ 905A 15-1/2" Seat Height
■ 907A 17-1/2" Seat Height
■ 907ALH 17-1/2" Seat Height Left Hand
