Ntersect Product Notes

- The one-piece seat is injection molded from special high-impact, blush-resistant polypropylene plastic
- The textured surface is etched to provide a non-slip surface and maintains a like-new appearance over years of use
- The underside of the shell is molded with an advanced rib pattern transferring weight directly to the frame
- Seat back incorporates handle for movement
- All-tubular design with round 18-gauge steel is attached to shell with four concealed machine rivets
- Exclusive dual-stacking system prevents loose stacks and falling chairs
- All welding is done prior to plating so it is not exposed
